

YOUR GUIDE TO STAYING IN AMUSA MARE
CALABRIAHOLIDAYHOMES.COM

The Apartment

Benvenuti a Amusa Mare.

We hope you will enjoy your stay at our apartment as we have made every effort to make it as homely and as comfortable as possible while you are here. This two bedroom apartment is well equipped to cater for a maximum of six people with the king-size bed, two single beds and the leather sofa bed there to help you sleep off the good food and wine that is to be found in this beautiful area of Calabria.

On your arrival each of the beds with the exception of the sofa bed will be made up with fresh sheets and covers. The sheets and covers for the sofa bed can be found in a bag marked "double bed" in one of the storage drawers underneath one of the single beds. The mattress topper, quilt and pillows for the sofa bed can be found in the ottoman which is next to the front door. All hand and bath towels as well as fresh sheets and covers are in the storage drawers underneath the beds. On your departure we would be grateful if you could strip the beds and leave with the towels to help the housekeeper prepare for washing.

The switches to turn on the cooker and fridge/freezer are located on the wall next to the toaster and kettle. Please do not turn the fridge/freezer off on your departure as the housekeeper will take care of this.

The plug to turn on the microwave is located at the end of the kitchen unit next to the front door.

There is a television in the living area for watching any of our selection of DVD's or for playing CD's. To select the channel to watch DVD's or play CD's press the "source" button on the T.V. remote control and select "AV". You will find a selection of DVD's and CD's in the drawer underneath the DVD player.

The hot water is supplied through the gas boiler which is located in the back balcony above the washing machine. For the time being the gas is being supplied through the gas bottle. To activate the boiler, first make sure the valve is fully open on the bottle and turn the yellow knob on the gas pipe to the open position. Once this has been done the boiler will automatically turn on as soon as you run the water. There should be two gas bottles next to the boiler. One connected to the system and a full "spare" one.

This should be more than enough to see you through your holiday however we would kindly ask that you replace the empty bottle with a full one before you depart so the next visitors will have the same supply available. The gas bottles can be purchased from the Agip petrol station which is located on the SS106 as you come into Marina di Gioiosa Jonica from Roccella Jonica. The cost for a replacement bottle is around €15. Please remember to take the empty bottle back. To replace the gas bottle turn the yellow knob to the close position and close the valve on the bottle. There is an

adjustable spanner underneath the kitchen sink which you can use to loosen the fixing nut that is attached to the bottle.

In the event you have a power cut, the fuse box for the apartment is located on the wall above the ottoman. If the power is still off and all the fuses are on then check the fuse box located in the main stairwell which is the one for the apartment block. If the fuses are all on then it is likely that the mains fuse that controls the complex has tripped. This fuse box is on the post located at the entrance to the adjacent house outside the controlled entry gate. There is a torch in the cupboard underneath the sink if required.

**We want you to relax
and enjoy your stay in
our apartment...**

There are three air conditioning units within the apartment. One in each bedroom and one in the lounge. Each unit has its own remote control so the temperatures can be adjusted to suit your needs. To operate the unit just press the main button on the front which will switch the unit on. From this you can then select which mode and temperature you require. These units can produce cold or hot air. If you are not sure refer to the operating manual which you can find next to the DVD player.

The washing machine is located in the back balcony and you will find the folding clothes dryer, iron and ironing board in the main bedroom.

We want you to relax and enjoy your stay in our apartment. We only ask that you respect our wishes by not smoking in the apartment and that you report any accidental damages. On your arrival you will see that the storage jars in the kitchen have tea, coffee and sugar. Also there will be toilet rolls as well as cleaning agents. Please feel free to use them but we kindly ask that you replace anything that you use in preparation for the next visitors.

Finally, on your departure please leave the house keys in the fruit bowl on the dining table and our housekeeper will collect them.

Have a wonderful time.
